not within his powers in asking for the supply of paper when a large number of copies was required by the Department. The reason now adduced is a narrow one for it makes little difference to Government whether the paper is supplied by the Superintendent or by the Department so long as the paper is used. Further this reason seeks to economise only paper and not printing. The proper course to be adopted by the Superintendent was to have asked the Head of the Dept. to obtain sanction or to have asked for sanction himself. This may perhaps be pointed out to the Superintendent.

It is not all depts that Govt. find funds for meeting such demands from the Press & the acceptance of the Supdts proposal would result in depts asking for increased grants to meet the charges.

It seems immaterial to Govt whether the funds Come from the Press or departmental budget. ~~If this~~ long as the necessity for ~~the~~ having the work done is recognised. It is no Considerable additional labour when the matter is published in the Gazette Subd for orders.

There is some force in the contention of the Superintendent that certain Departments are supplied with large quantities of paper with a view to their issue of Circulars etc and that while these quantities remain undiminished materially these departments are getting their Circulars printed in the Government Press.

There would be a clear case for cutting down the quantity of paper supplied to these departments if it is shewn that these departments have been supplying paper to the Press for printing Circulars etc for a reasonable length of time. This clearly leads to the inference that the supply of this additional quantity should be cut down. The Superintendent of Stationery may perhaps be requested to send a list of departments which apply for a large number of spare copies and if possible note the quantities of paper supplied by these

departments to the Press for obtaining a large number of spare copies. This information should be available at any rate with the Departments concerned and would furnish the data on which supplies of paper to the Departments may be cut down.

So far as the order issued by Government is concerned there is no reason for reconsideration as it does not seem to be correct on the part of the Superintendent to ask for supplies of paper — a circumstance that would only lead to clamour for larger supplies of paper from the Stationery Depot to the Departments without keeping down consumption. So far as the Departments are concerned the position would then be only a question of asking for more paper ~~with a~~ from the Stationery Depot with a view to return some of it to the Press for obtaining spare copies.

The action necessary seems to be rather to cut down supplies

The orders issued in Serial 4 do not seem to require reconsideration. The several Govt themselves in sanctioning proposals direct the printing of a large number of spare copies. There are ample checks against extravagance already as the Superintendent has been directed to bring cases of abnormal indents for spare copies to the notice of Government. He may be directed to cancel the unauthorised direction contained in para 2 of his notice attached to the Gazette printed hereinth. The statements furnished by him do not seem to

The draft in Flag P reps the previous practice accepted by all the Departments, but as the Proposals in Items 2 & 3 in Flag O, the previous practice cannot be reverted to, when the provision for printing in the Departmental Budgets has been transferred to the Press Budgets. It seems best that the Press Budget should in the first instance be recommended on its own paper and charges it & its own Budgets. The Press Budgets may require revision but perhaps that may be considered when the occasion arises. Perhaps the draft may be printed accordingly.

BANGALORE,
11th July 1922.

My dear Matthan,

I send herewith for perusal copies of certain correspondence regarding the supply of spare copies of certain notifications relating to the Department. You will see from it that the Superintendent of the Government Press asks me to supply him with the paper required for printing these extra copies. I do not know on what authority he is trying to transfer this charge to my Department even after the transfer to the Press Budget of all provision made for printing in the Departmental Budget, excepting it be Government Order No.21536-55/P&S 58-18-6 dated 26th March 1919 which is applicable only to small indents which merely cause inconvenience to the Press without any advantages. I believe it does not apply to cases like the one I refer to where large number of copies are needed and where it is more economical to supply printed copies than to use cyclostyled copies.

I am, however, providing the Superintendent with the required quantity of paper on this occasion in order not to delay the matter, but I should like to have some definite ruling for future guidance. There are numerous occasions when I have to send copies of notices and circulars to a large number of schools and if the Press insists on being furnished with paper on every occasion, it will be merely shifting a legitimate charge on the Press to my budget. I should, therefore, be much obliged if you will

kindly look into the matter and instruct the Government Press to comply with such requests without these conditions.

Thanking you in advance,

Yours sincerely,

C S Balasundaram

This has been accepted by various officers and paper is being supplied for such supply of abnormal number of spare copies.

OFFICE OF THE COMPILER, "MYSORE GAZETTE",
Bangalore, Dated 22nd AUGUST 19 28.

From

D. B. Ramachandra Mudaliar, Esq., M.R.A.S.,
Compiler, " Mysore Gazette, "
Bangalore.

To

B. Venkoba Rao. Esq., B. A.,
Secretary to Government, General Department,
Bangalore.

Sir,

With reference to your letter No. E. 1186-P.&.S. 5-22-4, dated the 15th instant, I have the honor to state that paper sufficient to meet all their requirements is being supplied by the Stationery Depot ~~of~~ to all Heads of Departments including what is wanted for cyclostyling the notices, circulars, etc., of the respective departments. When such is the case, if they send in requisitions for spare copies of the Gazette also in abnormal numbers, it will amount to double supply of paper and it is for this reason that the departments requiring large number of spare copies were requested to supply their paper whenever a large number of copies ~~xxxxxxxxx~~ were wanted by them. They have accepted the reasonableness of the demand and have gladly supplied the paper on many previous occasions for the past four years on intimation given to them of the number of reams required for printing and supplying the number of spare copies requisitioned by them. I have brought to the kind notice of Government in my D.O. letter No.282, dated 27th December 1918, the difficulties attendant on the supply of large number of spare copies and have recommended that 100 copies will be printed and supplied free of cost and that the departments concerned will have to supply paper when more than the number specified above is required. Specific instances where large number of spare copies were asked for have

been submitted to Government in my letter No. 451, dated 5th February 1919. Copies of these two letters and the enclosures are submitted herewith for ready reference.

Government in their Order No. G.215-36-95/P.&.S. 58-18-6, dated 23rd March 1919, were pleased to agree with my opinion expressed in the above letters, but in para 2 of the above order desired me to bring to the notice of Government all cases of abnormally large indents. As these indents are invariably immediate, they do not brook the delay that will follow if orders of Government are sought for in every case, more especially because matter is standing, having been published in the Gazette and should be printed off at once. Consequently, it was not possible to refer the matter to Government.

The Inspector-General of Education states that he will supply paper for printing the copies in the present case also. He also states that there will be many other occasions on which he would similarly require large number of spare copies. If paper is issued like this from the Stationery Depot for these copies in addition to the quantity of paper already supplied to departments on similar indents, the paper stocked in the Depot for printing indents and other works will rapidly be consumed causing the indents to be held up; while the paper purchased for printing the Gazette will just suffice for it and cannot be made available for extra copies.

In this connection I may be permitted to state that the Stationery Budget for the purchase of paper has been considerably reduced owing to the financial stringency and the Government have strictly declined the grant of additional funds. If the Press has to bear the cost of printing and supplying large number of spare copies by using its own stock of paper without demanding payment or a supply of paper in return, the Stationery Budget will have to be proportionately increased for stocking the extra paper required for such purposes. If the departments do not --

either supply paper or bear the cost, it will be a burden to the Stationery Depot to supply the extra paper.

Under the above circumstances, I request the Government will be pleased ~~passed~~ to kindly reconsider the case and pass definite orders on the subject directing the supply of paper for printing ~~afre~~ share copies over and above the maximum quantity permitted, viz., 100, as has been the practice hitherto and which has been accepted by all the departments.

I have the honor to be,
Sir,
Your most obedient servant,

Superintendent.

D.V.S.

D.O.No. 282, dated 27th December 1918, from the Compiler, Mysore Gazette, Bangalore, to the Chief Secretary to the Government of Mysore, Bangalore.

I beg to bring to your kind notice that the Secretariat, Heads of Departments and other officers invariably ask for the supply of spare copies of the notifications and notices published in the Gazettes. The requisition is for such small numbers as 3 or 4 copies and that it is found extremely difficult for the Press to print such a small number on the machine which involves much waste of time. I beg to suggest therefore that in the case of the Secretariat, these few copies may be got done on the multigraph and that the other officers may have them cyclostyled in their offices after the receipt of the Gazette.

On the other hand some officers make a large demand for spare copies. They send copy to the Gazette and ask for copies varying from

1000 up to 10,000 some times. I beg to state that this kind of procedure involves great loss of paper, not to say loss of time on machine.

I therefore beg that orders may be kindly issued to the effect that no spare copies less than fifty and more than 100 will be supplied free and if more than this number is required, paper for same should be supplied by the department concerned.

Letter No. 451, dated 5th February 1919, from the Compiler, Mysore Gazette, Bangalore, to the Chief Secretary to the Government of Mysore, Bangalore.

With reference to your Docket No. G.16198/P.&.S. 58-18-2, dated 4th instant, I have the honor to forward herewith a statement showing cases in which the departments have been asking for a large number of spare copies.

In this connection I beg also to bring to the notice of Government only 8 copies are being asked for and supplied to the Secretariat of all notifications re: Civil appointemnts. I beg, therefore, to propose as already suggested in my letter No. 382 dated 28-12-18 that orders may be issued laying down that no spare copies less than 25 and more than 100 will be supplied free and if a large number is required, the necessary paper should be supplied by the department concerned.

Secretary to Government, General Department,
Bangalore.

Sir,

With reference to your letter No. E. 2478/P.&.S. 5-22-7, dated the 9th instant, requesting to send a list of departments indenting for the supply of a large number of spare copies, I have the honor to invite your kind attention to this office letter No. 451 dated 5th February 1919 with which a list showing cases of abnormally large indents for spare copies was forwarded. A similar list was also furnished with this office No. 526 dated 5th March 1919.

The departments shown in those lists are even now asking

similarly for the supply of a large number of copies. I append a recent list of similar applicants.

In many cases, paper was supplied on requisition from this office and in certain cases spare copies were charged for and the amount realised was credited to the Treasury. Lists of these instances are also enclosed.

I have the honor to be,
Sir,
Your most obedient servant,

Compiler,
